

How to Pay Your Annual Dental Insurance Fee

Paying your annual dental insurance fee takes just a few minutes online. Here's exactly what to expect.

Ready to enroll? Go to gobdf.org/dental-program-enrollment to complete your enrollment.

1

Open the payment form.

You'll see three coverage options:

\$50

per bleeding disorder patient

\$200

per dependent or caregiver

\$650

family maximum

Select the option that applies to the first person you are paying for. If your family's total fees would add up to more than \$650, select the \$650 Family Maximum option from the start — it's the most you'll ever pay in a single year, regardless of household size or mix of coverage tiers.

2

Choose a quantity if needed.

If you have more than one person in the same tier — for example, two patients — you can increase the quantity on that ticket before checking out. One submission will cover both.

3

Complete your payment.

Enter your payment information and submit. You'll land on a confirmation screen that says "Thank you for your Registration."

4

Need to add another coverage tier?

If your family includes people in different tiers — for example, one patient at \$50 and one dependent at \$200 — click "Purchase Additional Tickets" on the confirmation screen. This brings you back to the form to complete a second submission for the next tier. Repeat until everyone in your household is covered.

A few helpful reminders

- Each submission covers one tier at a time, so mixed households will need more than one submission.
- Families will never pay more than \$650 total per year. If your combined fees would exceed \$650, select the \$650 Family Maximum option instead of submitting multiple tiers.
- Save your confirmation screen or email for each submission for your records.
